

Ventless Hood (vlesshood12) for Marra Forni Electric Oven Models

Overview

Our Ventless Hood system technology is the answer to a portable way of clearing the air. No ductwork or special venting are required. Just plug in and clear the air. Ventless hoods feature a patented triple filter. No makeup air or roof modifications are needed. HEPA filter final stage filtration. Constructed of heavy gauge stainless steel and all seams are welded liquid tight.

Ventless system technology offers alternative solutions to our customers in solving their air cleaning needs. The technology offers benefits and flexibility not provided by traditional venting hood systems.
